

Welcome to your Insights!

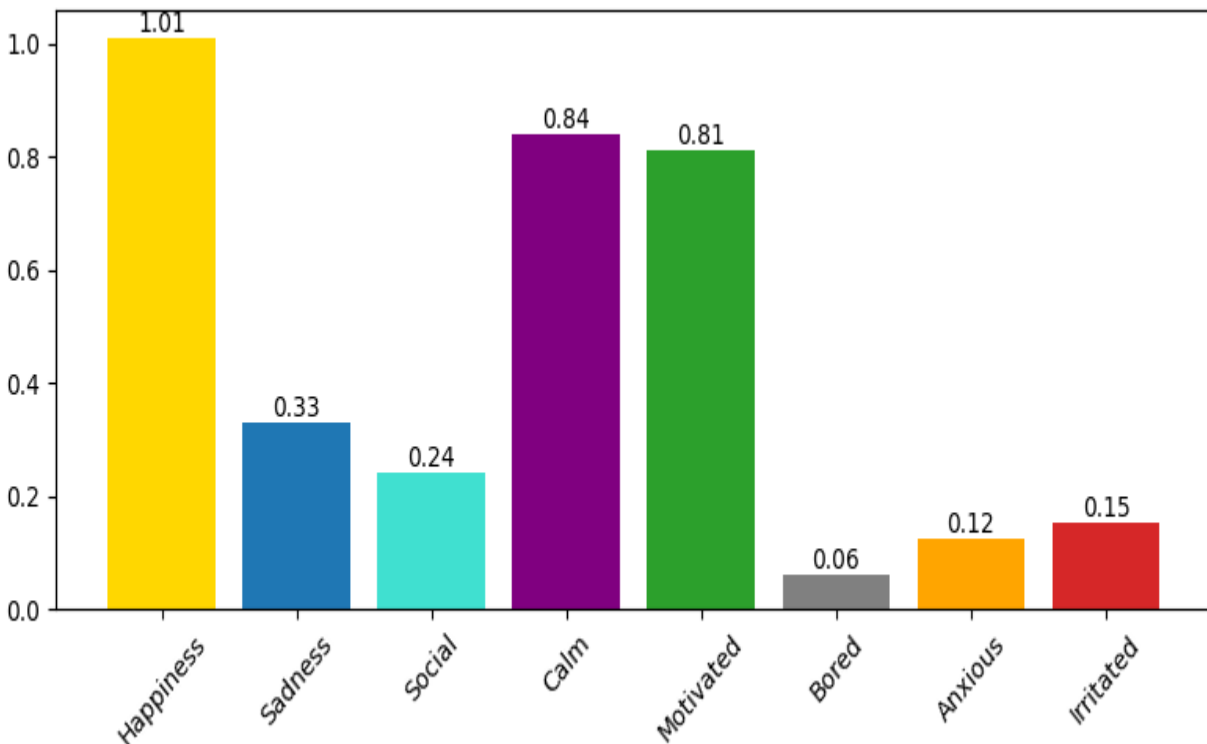

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the last two weeks, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last two weeks!

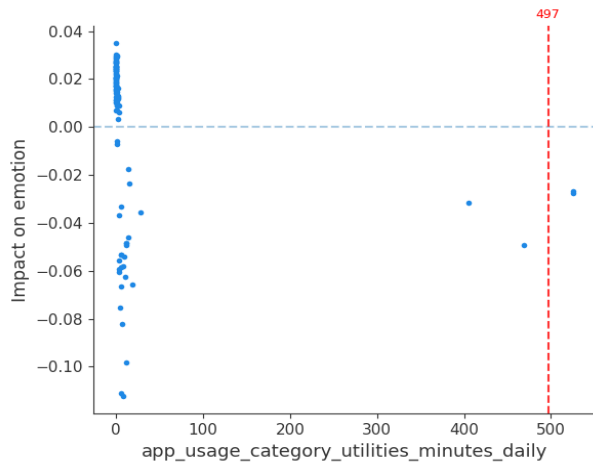

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you used utilities apps (this may include apps like Google and Chrome) for less than 497 minutes in a day, you were more happy.

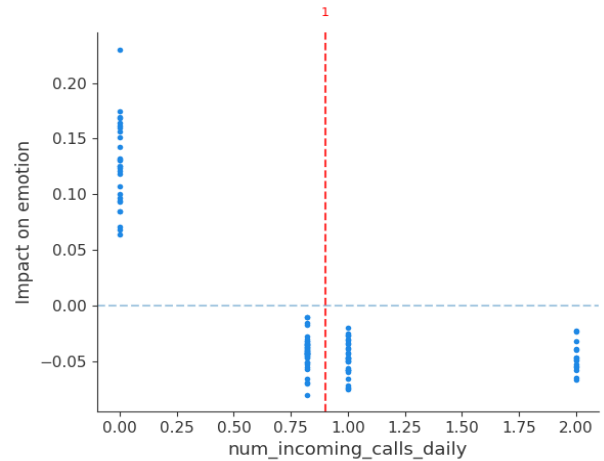

These are the top two actions associated with more happiness:

1. Less time you spent on utilities apps (this may include apps like Google and Chrome) in a day
2. Less typical activity you did during the daytime

Sadness

When you received less than 1 calls in a day, you were more sad.

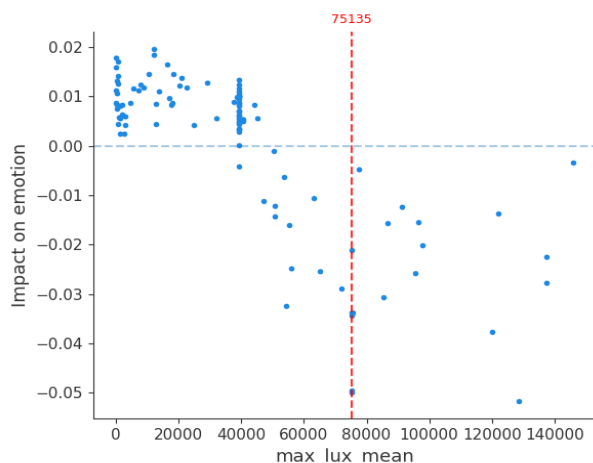

These are the top two actions associated with more sadness:

1. Less phone calls that you received in a day
2. Less distance that you traveled

Calm

When the brightest light around you was less than bright sunlight, you were more calm.

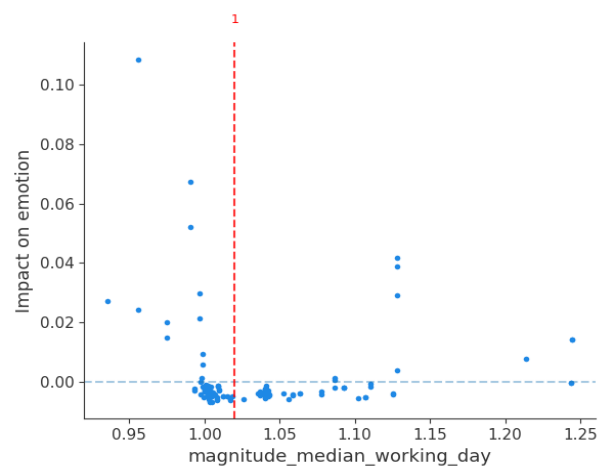

These are the top two actions associated with feeling calmer:

1. Less bright amount of light
2. Less time you spent on music apps (this may include apps like Spotify and Youtube Music)

Anxious

When the typical activity you did was similar to or more than mild activity (which includes walking and jogging) during the daytime, you were less anxious.

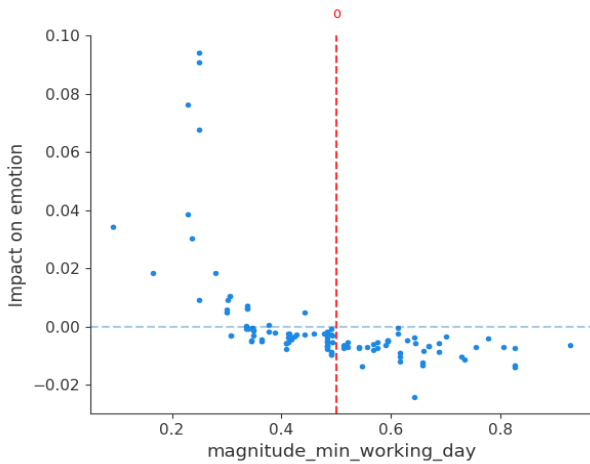

These are the top two actions associated with feeling less anxious:

1. More typical activity you did during the daytime
2. Less area covered while you were traveling

Over the last few weeks..

Social

When the lowest activity you did was similar to or less than mild activity (which includes walking and jogging) during the daytime, you were more social.

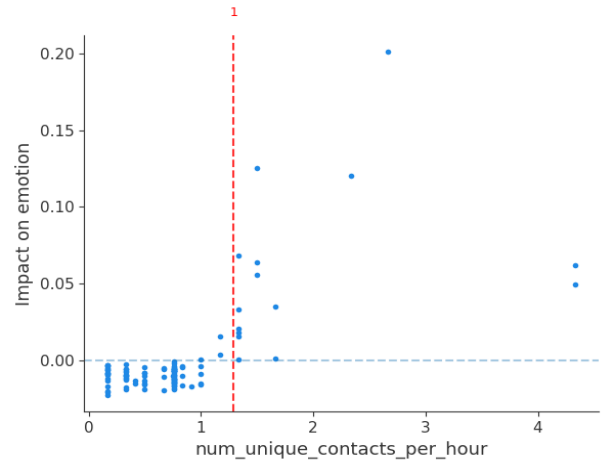

These are the top two actions associated with being more social:

1. Less lower activity
2. More phone unlocks

Irritated

When you were messaging less than 1 different people, you were less irritated.

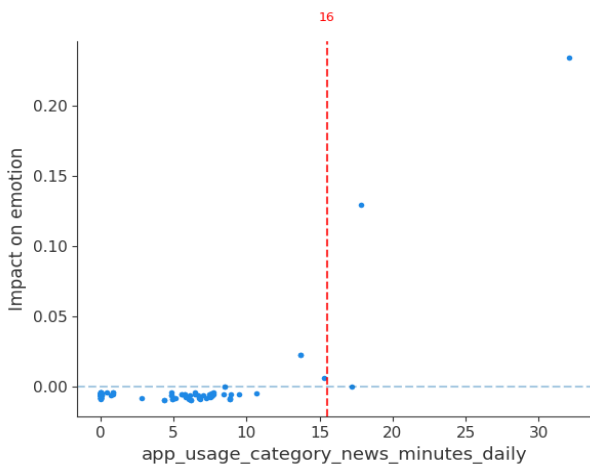

These are the top two actions associated with feeling less irritated:
