

Welcome to your Insights!

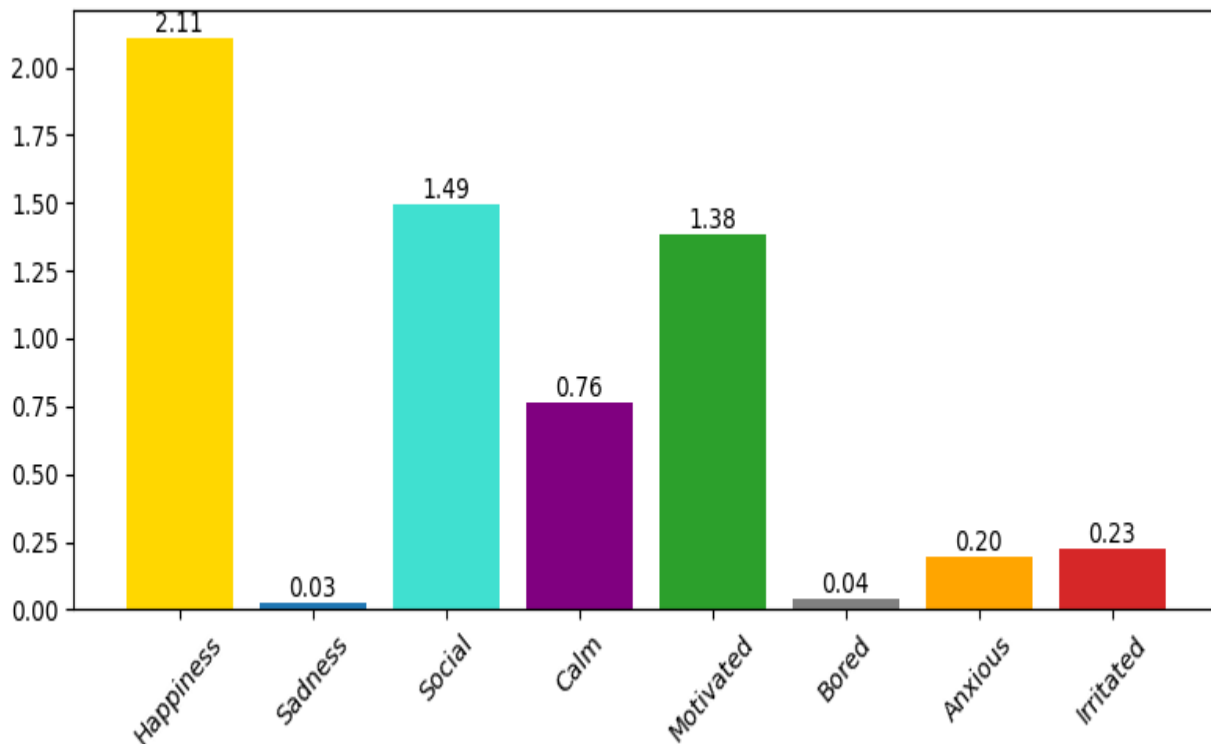

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the last two weeks, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last two weeks!

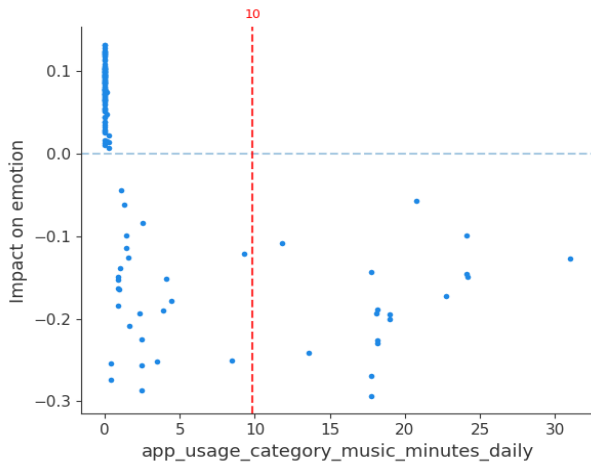

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you used music apps (this may include apps like Spotify and Youtube Music) for less than 10 minutes in a day, you were more happy.

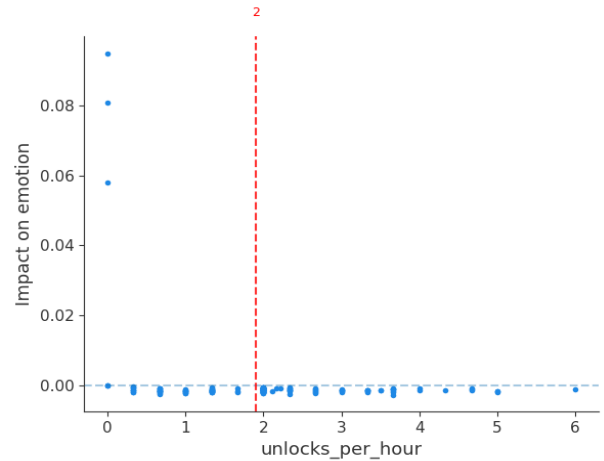

These are the top two actions associated with more happiness:

1. Less time you spent on music apps (this may include apps like Spotify and Youtube Music) in a day
2. Less time you spent on lifestyle apps (this may include apps like Pinterest and Lemon8) in a day

Sadness

When you unlocked your phone more than 2 times , you were less sad.

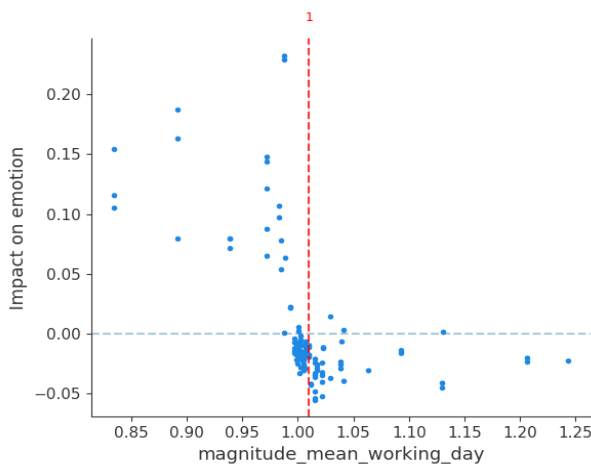

These are the top two actions associated with less sadness:

1. More phone unlocks
2. Less time you spent on weather apps in a day

Calm

When the average activity you did was similar to or less than mild activity (which includes walking and jogging) during the daytime, you were more calm.

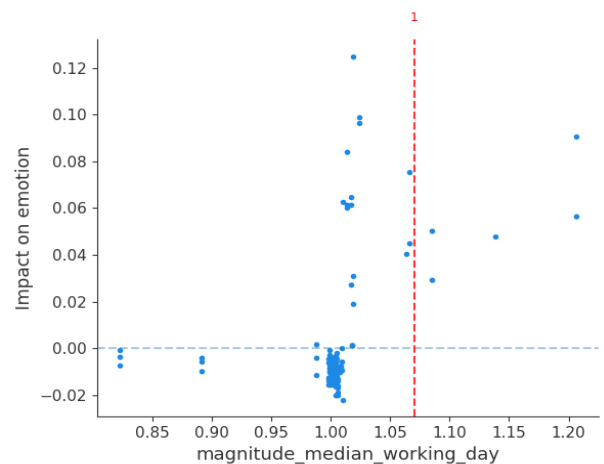

These are the top two actions associated with feeling calmer:

1. Less average activity for you during the daytime
2. Less typical activity you did during the daytime

Anxious

When the typical activity you did was similar to or less than mild activity (which includes walking and jogging) during the daytime, you were less anxious.

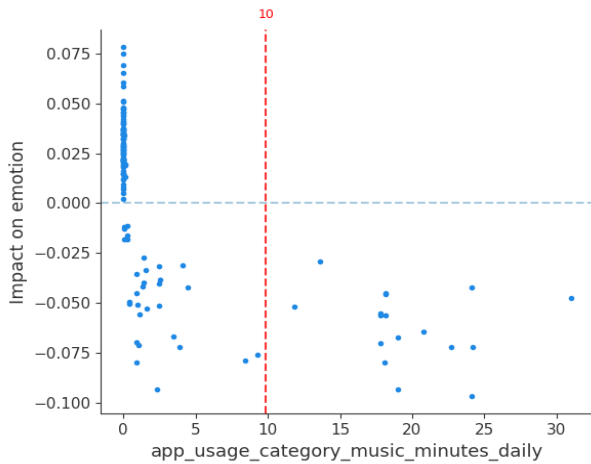

These are the top two actions associated with feeling less anxious:

1. Less typical activity you did during the daytime
2. Less average activity for you during the daytime

Over the last few weeks..

Social

When you used music apps (this may include apps like Spotify and Youtube Music) for less than 10 minutes in a day, you were more social.

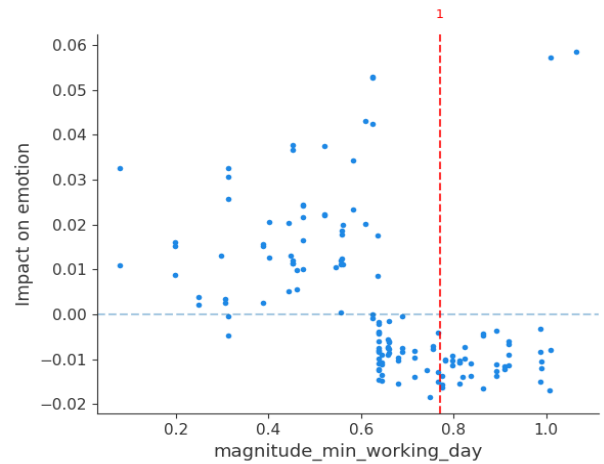

These are the top two actions associated with being more social:

1. Less time you spent on music apps (this may include apps like Spotify and Youtube Music) in a day
2. Less bright amount of light

Irritated

When the lowest activity you did was similar to or less than mild activity (which includes walking and jogging) during the daytime, you were more irritated.

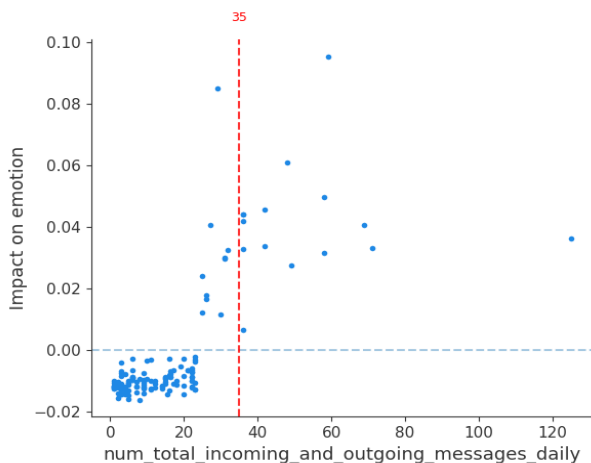

These are the top two actions associated with feeling more irritated:

1. Less lower activity
2. Less time your phone was unlocked during the night

Bored

When you sent and received less than 35 text messages in a day, you were less bored.

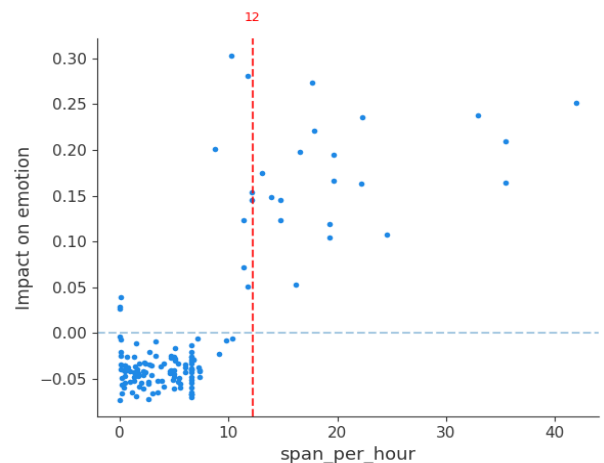

These are the top two actions associated with feeling less bored:

1. Less text messages you sent and received in a day
2. Less text messages you sent during a couple hours of phone usage

Motivated

When you traveled large distances that were less than 12 miles, you were less motivated.

These are the top two actions associated with feeling less motivated:

1. Less large distances you traveled
2. Less dim amount of light
