

Welcome to your Insights!

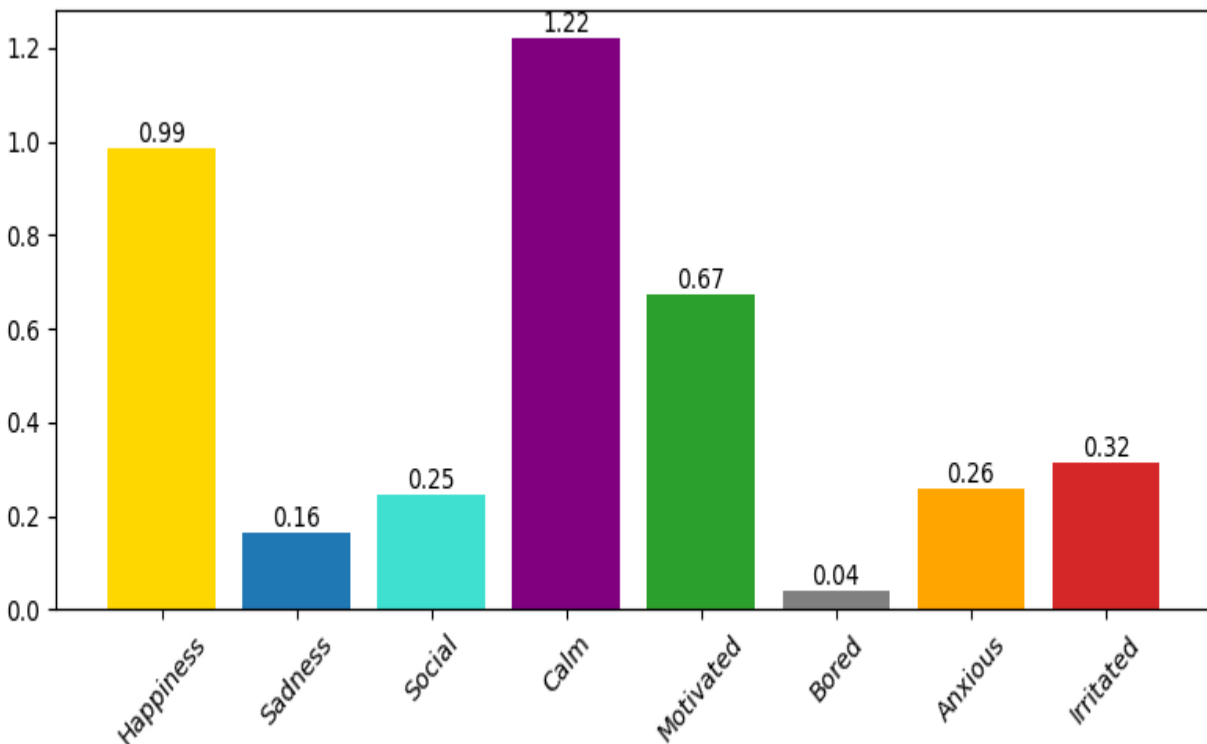

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the last two weeks, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last two weeks!

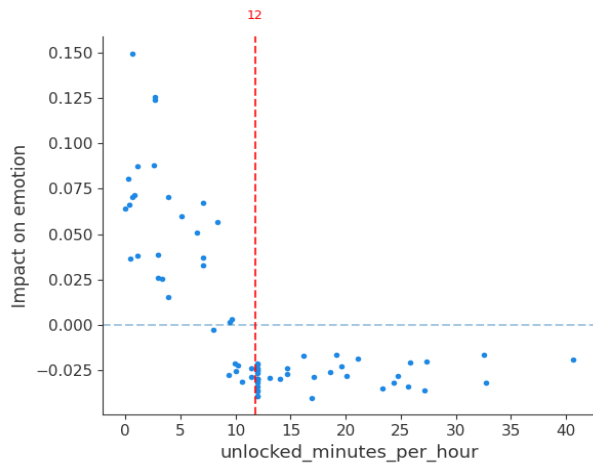

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you unlocked your phone for more than 12 minutes , you were less happy.

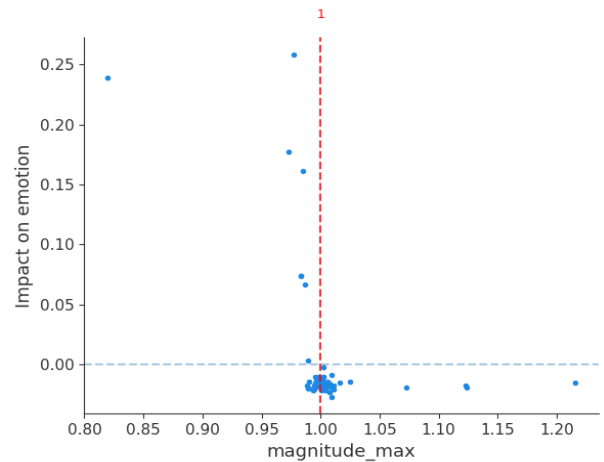

These are the top two actions associated with less happiness:

1. More time your phone was unlocked
2. More higher activity

Sadness

When the greatest activity you did was similar to or more than mild activity (which includes walking and jogging) , you were less sadness.

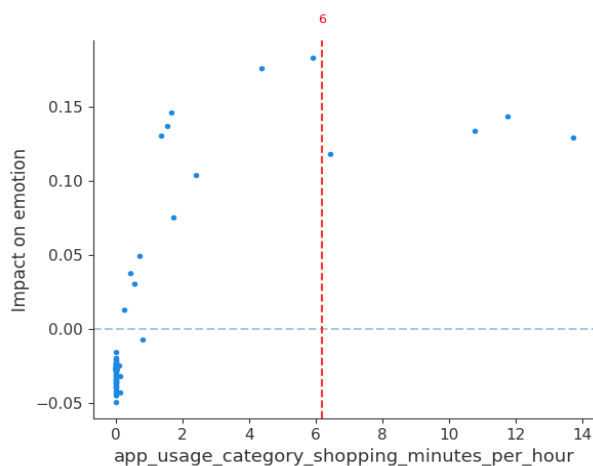

These are the top two actions associated with less sadness:

1. More higher activity
2. Less phone unlocks during the day

Calm

When you used shopping apps (this may include apps like Amazon, Temu, Depop, and Shein) for less than 6 minutes , you were less calm.

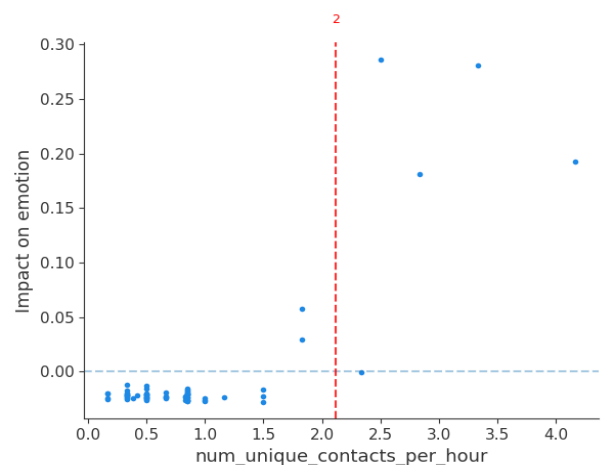

These are the top two actions associated with feeling less calm:

1. Less time you spent on shopping apps (this may include apps like Amazon, Temu, Depop, and Shein)
2. Less time you spent on productivity apps (this may include apps like Gmail, ChatGPT, and Google Drive)

Anxious

When you were messaging less than 2 different people , you were less anxious.

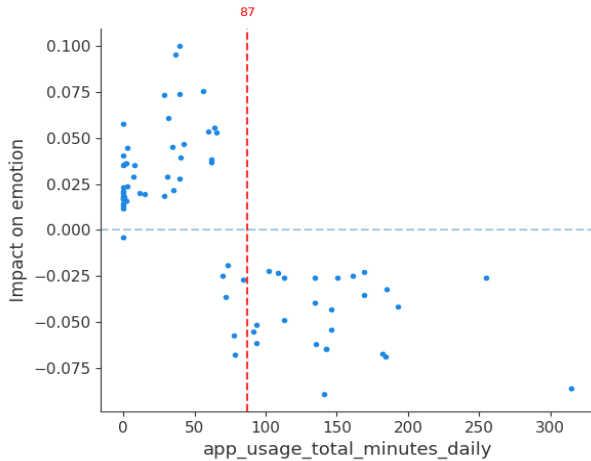

These are the top two actions associated with feeling less anxious:

1. Less people you text messaged
2. Less time your phone was unlocked during the night

Over the last few weeks..

Social

When the total time you spent on any apps was less than 87 minutes in a day, you were more social.

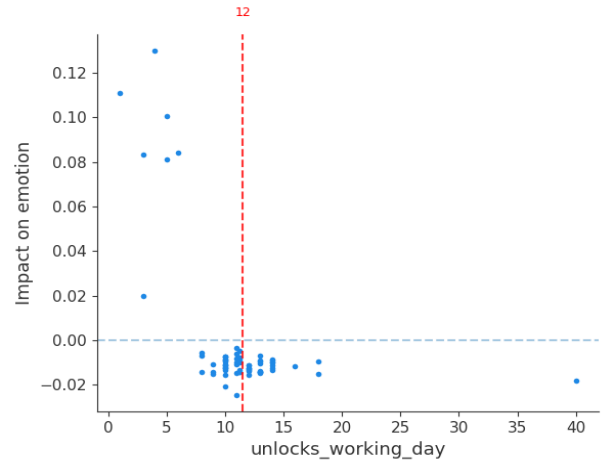

These are the top two actions associated with being more social:

1. Less time you spent on any app on your phone in a day
2. Less higher activity

Irritated

When you unlocked your phone less than 12 times during the day, you were more irritated.

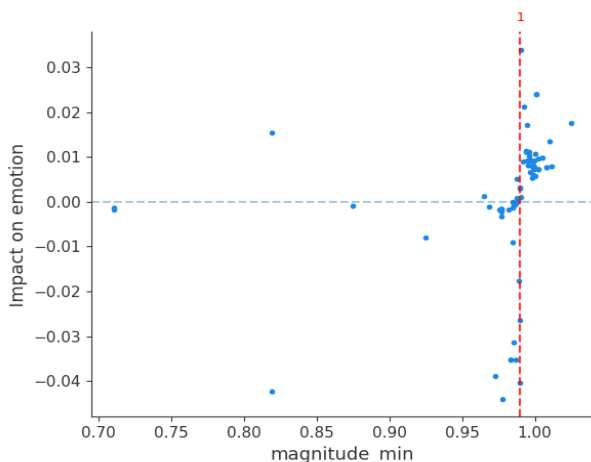

These are the top two actions associated with feeling more irritated:

1. Less phone unlocks during the day
2. Less people you text messaged

Bored

When the lowest activity you did was similar to or more than mild activity (which includes walking and jogging), you were more bored.

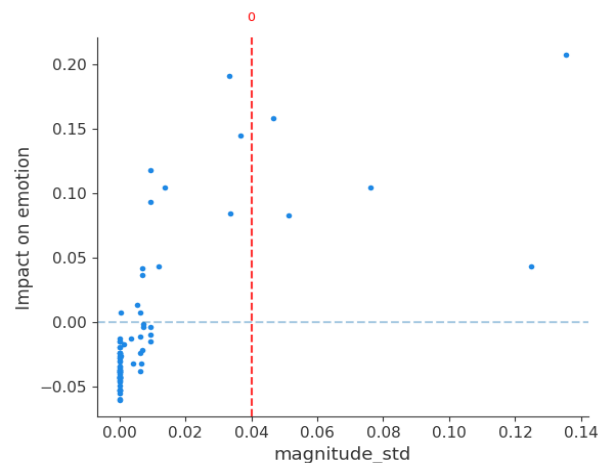

These are the top two actions associated with feeling more bored:

1. More lower activity
2. More higher activity

Motivated

When the variety of activities that you did was small, you were less motivated.

These are the top two actions associated with feeling less motivated:

1. Less varied activity
2. Less phone unlocks during the day
