

Welcome to your Insights!

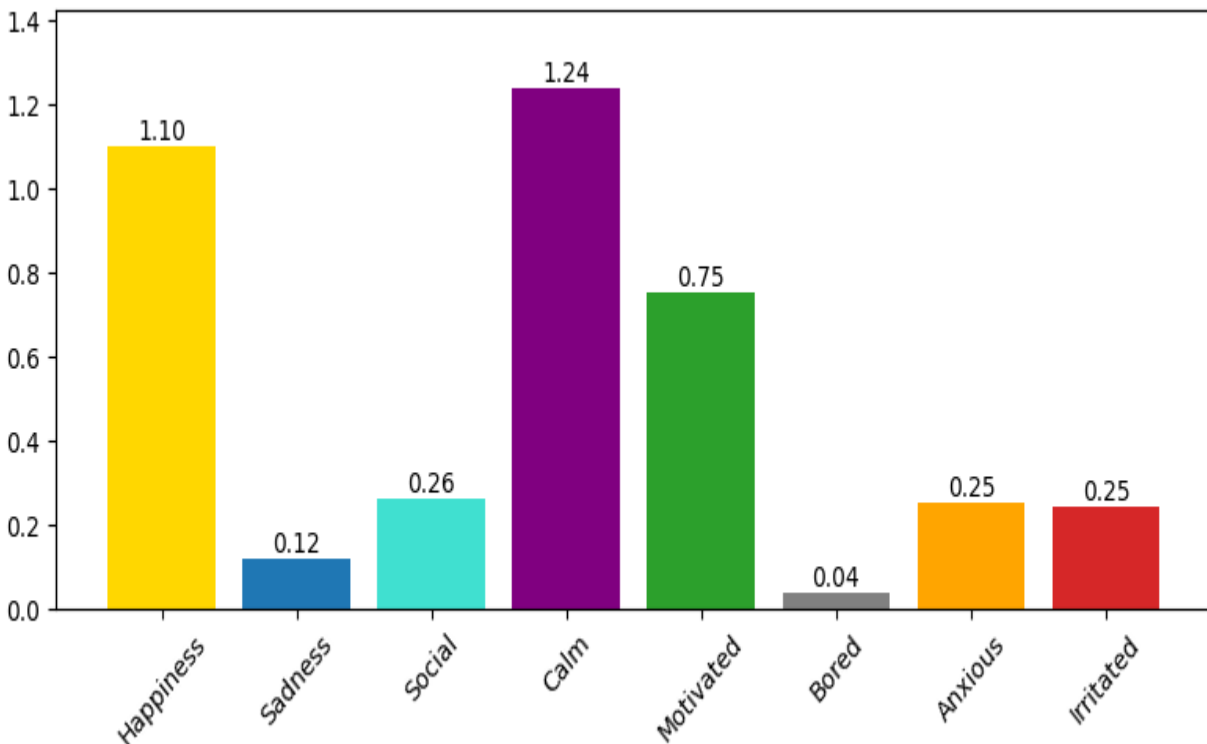

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the course of the study, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last few weeks!

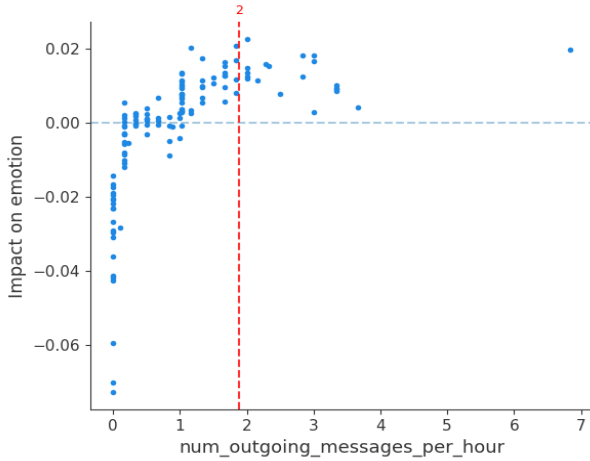

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you sent fewer than 2 text messages, you were less happy.

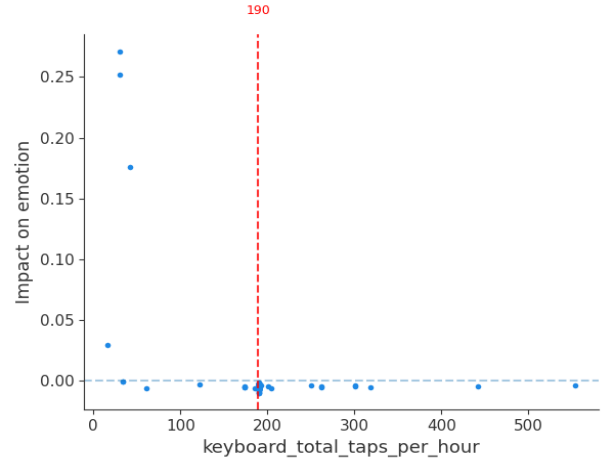

Also...

1. When you unlocked your phone less, you were less happy.
2. When you unlocked your phone for less time, you were less happy.

Sadness

When you tapped your keyboard more than 190 times in an hour, you were less sad.

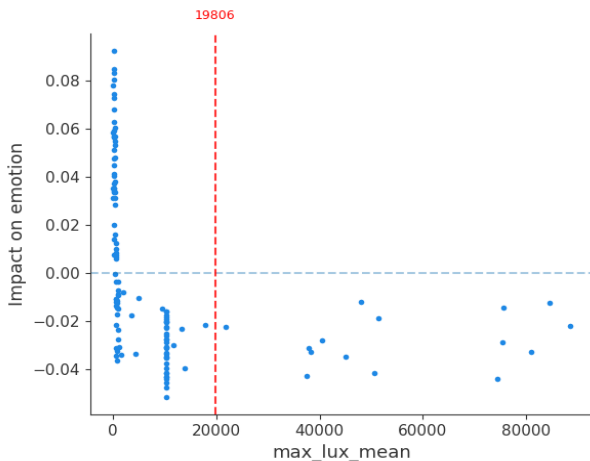

Also...

1. When you spent less time on productivity apps (apps like Gmail, ChatGPT, and Google Drive) daily, you were less sad.
2. When you had dimmer light around you, you were less sad.

Calm

When the light around you was dimmer than direct sunlight, you were more calm.

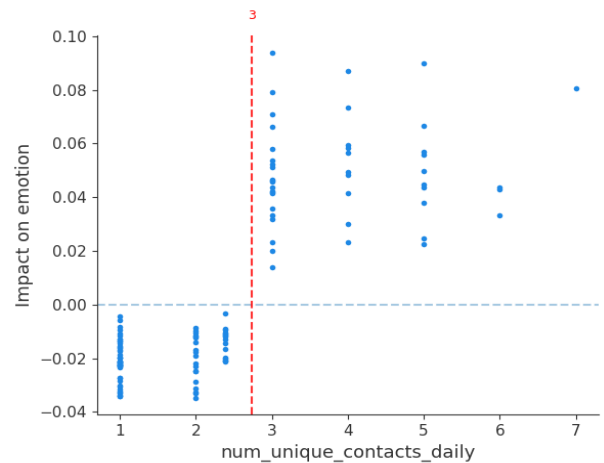

Also...

1. When your battery was high, you were more calm.
2. When your minimum movement was less during the daytime, you were more calm.

Anxious

When you called fewer than 3 people in a day, you were less anxious.

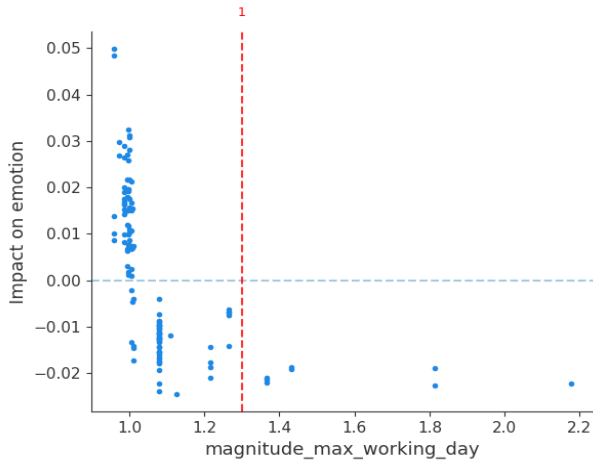

Also...

1. When you were messaging fewer people, you were less anxious.
2. When you unlocked your phone for less time at time, you were less anxious.

Over the last few weeks...

Social

When your movement during the day was slower than walking, you were more social.

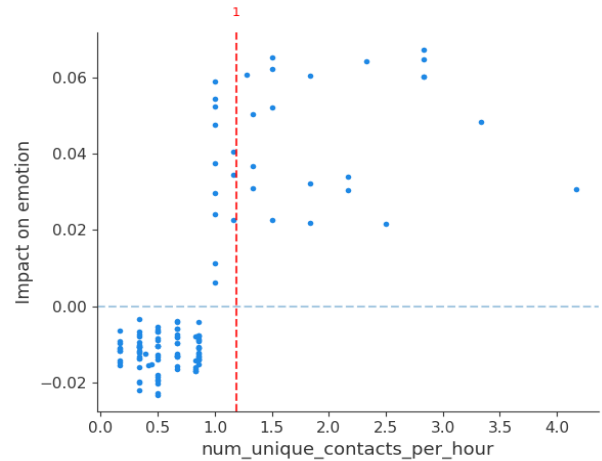

Also...

1. When you spent less time on any apps on your phone daily, you were more social.
2. When you spent less time on news apps (apps like Reddit, NPR, and X) daily, you were more social.

Irritated

When you were messaging fewer than 1 person, you were less irritated.

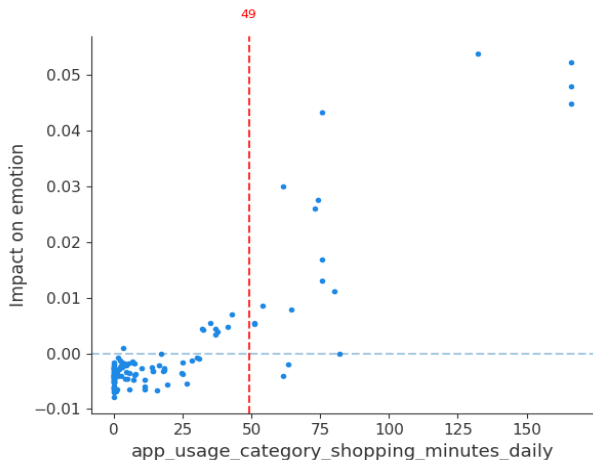

Also...

1. When you spent less time on productivity apps (apps like Gmail, ChatGPT, and Google Drive), you were less irritated.
2. When your minimum movement was less during the daytime, you were less irritated.

Bored

When you used shopping apps (apps like Amazon, Temu, and Shein) for less than 49 minutes in a day, you were less bored.

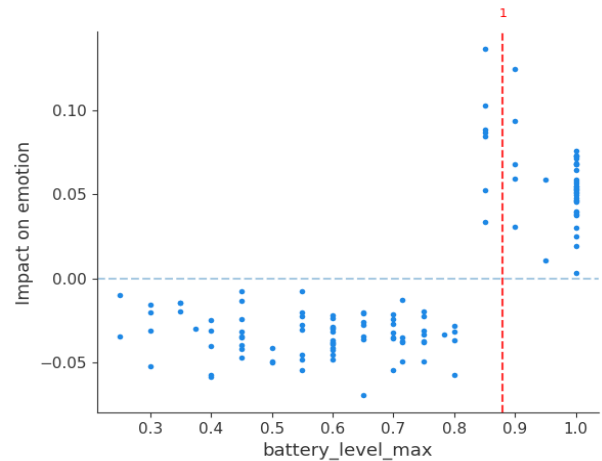

Also...

1. When you tapped your phone keyboard fewer times, on average, you were less bored.
2. When you were on calls for less time, you were less bored.

Motivated

When your highest battery level was less than 88%, you were less motivated.

Also...

1. When you were moving less, you were less motivated.
2. When your battery was low, you were less motivated.
