

Welcome to your Insights!

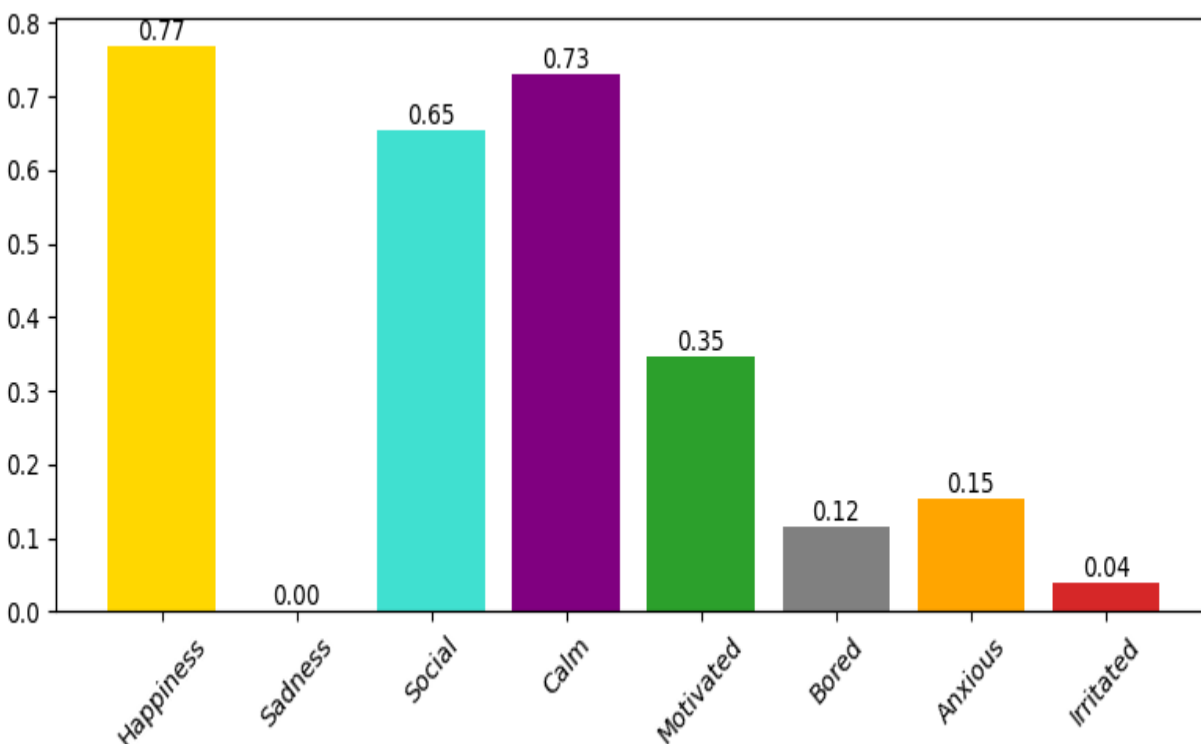

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the course of the study, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last few weeks!

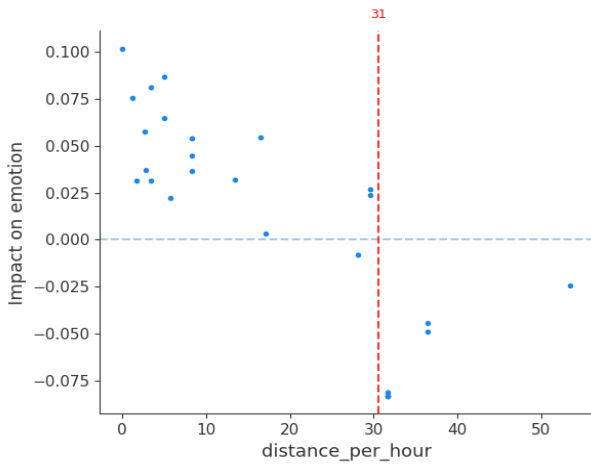

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you traveled less than 31 miles , you were more happy.

Also...

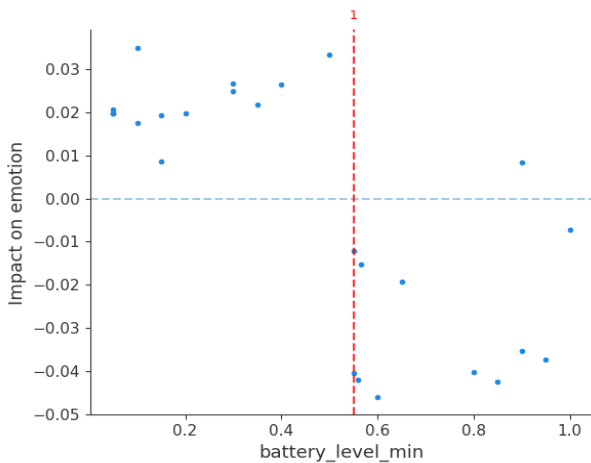

1. When you were more happy, you traveled less
2. When you were more happy, you did less typical activity you have done

Sadness

Insufficient data collected.

Calm

When battery_level_min was less than 1, you were more calm.

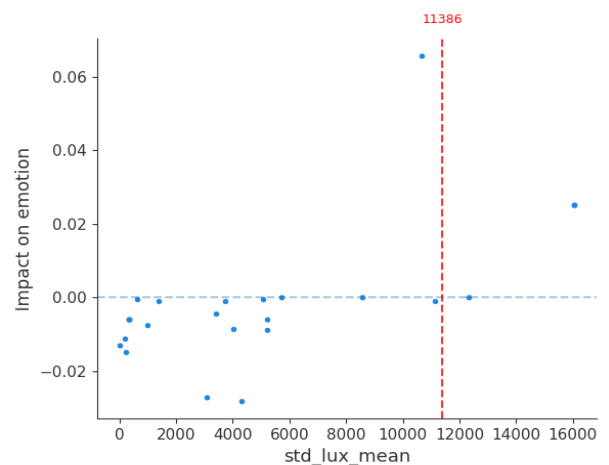

Also...

1. When you were more calm, you did more low types of activity
2. When you were more calm, you traveled less

Anxious

When the variability of brightness of light around you was less than direct sunlight, you were less anxious.

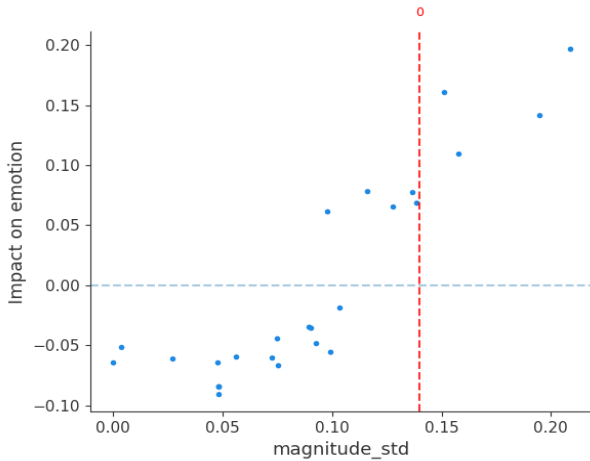

Also...

1. When you were less anxious, you had less typical amount of light for you

Over the last few weeks...

Social

When the variety of activities that you did was large, you were less social.

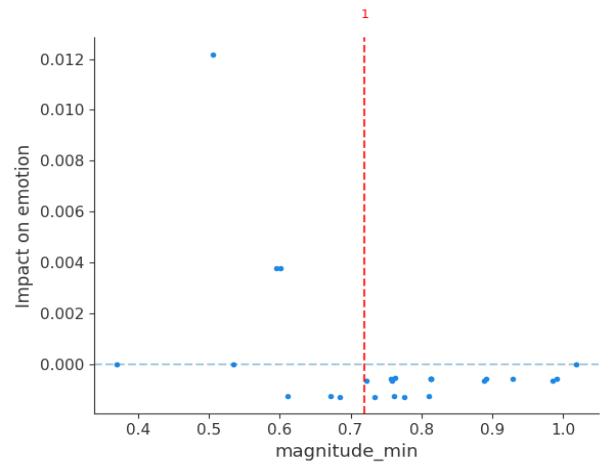

Also...

1. When you were less social, you did less high types of activity
2. When you were less social, you did more typical activity you did during the daytime

Irritated

When the lowest activity you did was similar to or more than mild activity (which includes walking and jogging), you were less irritated.

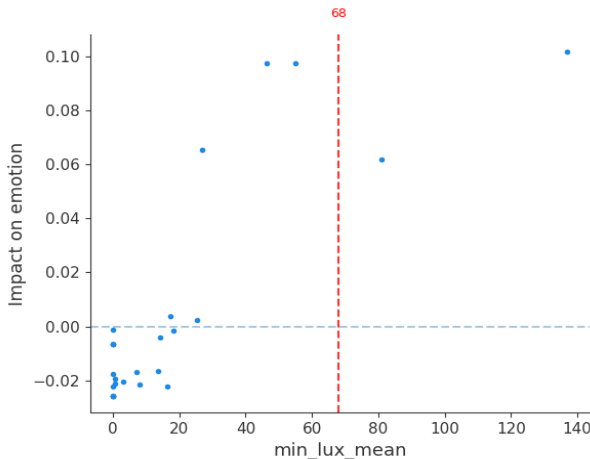

Also...

1. When you were less irritated, you did more low types of activity during the daytime

Bored

When the dimmest light around you was less than the light on a dark overcast day, you were less bored.

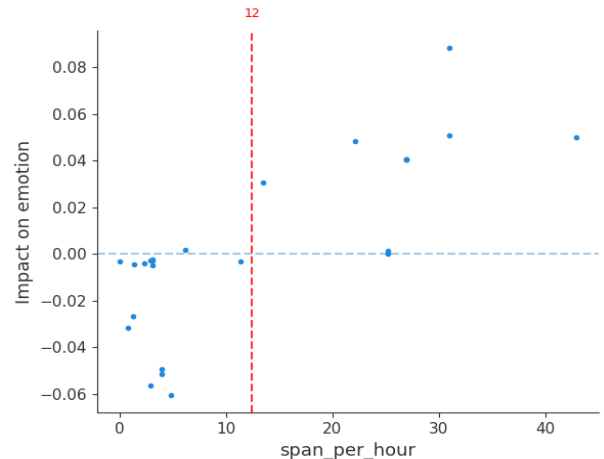

Also...

1. When you were less bored, battery_level_min less
2. When you were less bored, you did more low types of activity

Motivated

When you traveled less than 12 miles, you were less motivated.

Also...

1. When you were less motivated, you traveled less
2. When you were less motivated, you did less typical activity you have done
