Welcome to your Insights!

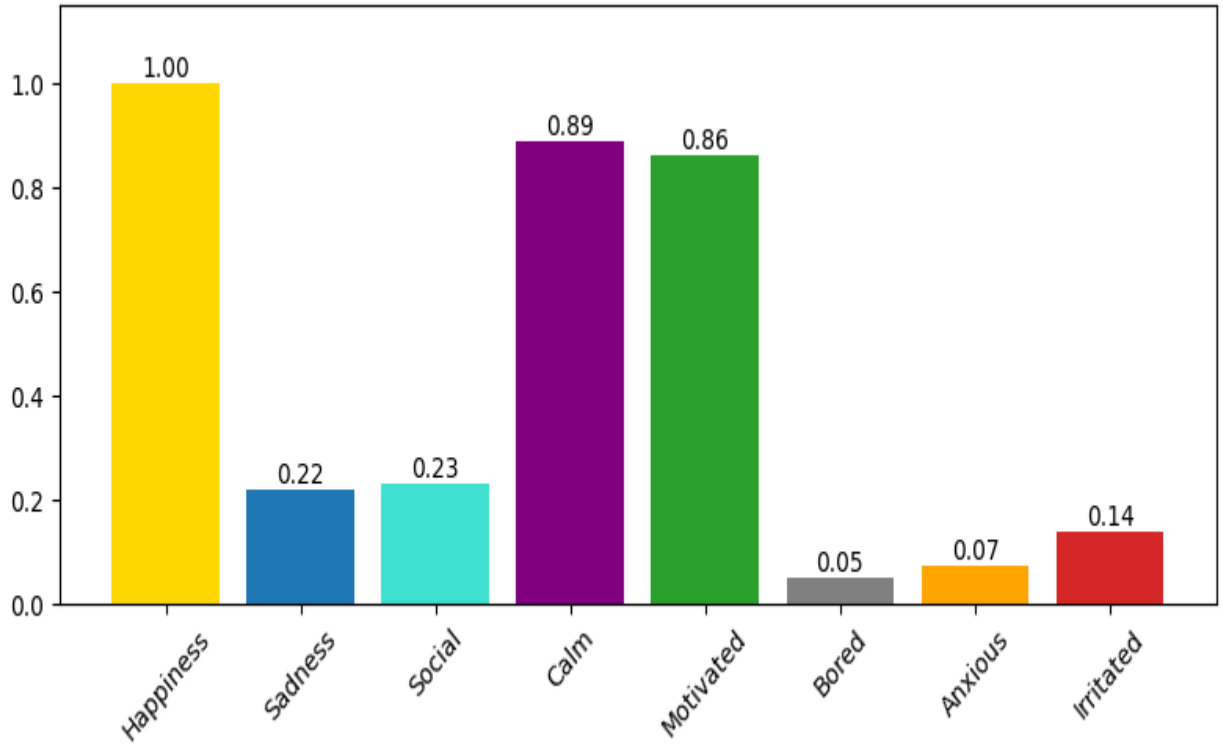

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the course of the study, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last few weeks!

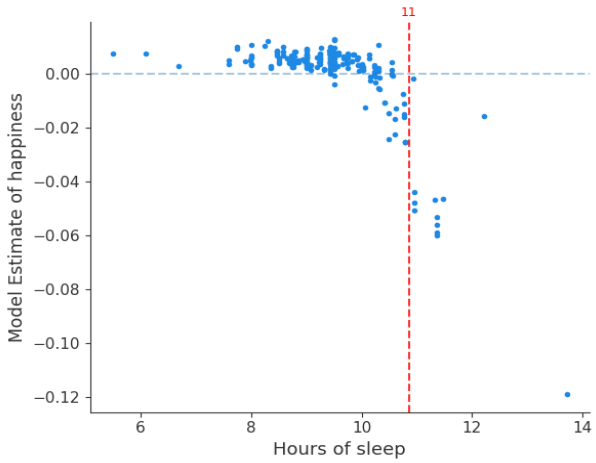

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you were sleeping for less than 11 hours, you were more happy.

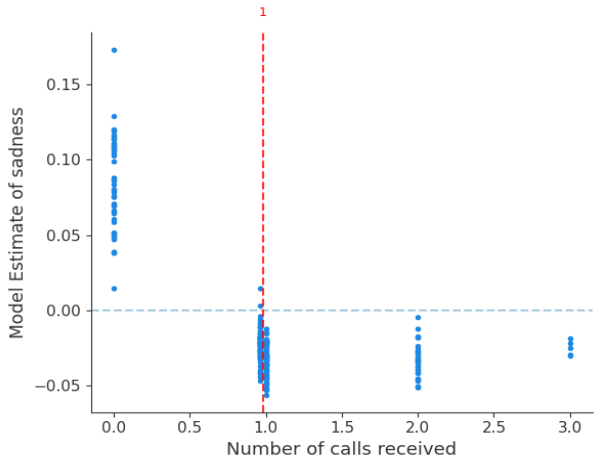

Also...

1. When you spent less time on utilities apps (apps like Google and Chrome) daily, you were more happy.
2. When you were moving less during the daytime, you were more happy.

Sadness

When you received fewer than 1 call in a day, you were more sad.

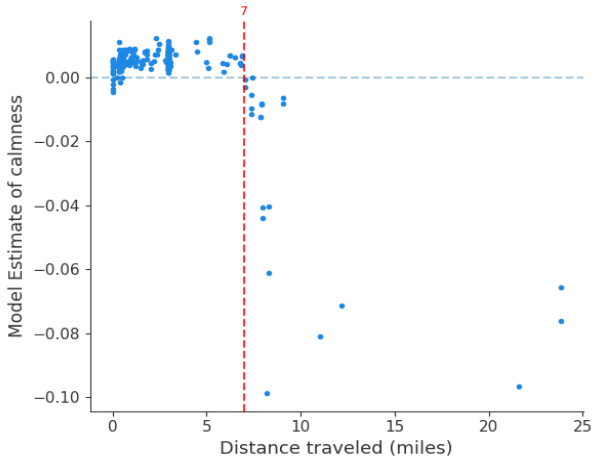

Also...

1. When you traveled shorter distances, you were more sad.
2. When you were sleeping less, you were more sad.

Calm

When you traveled less than 7 miles, you were more calm.

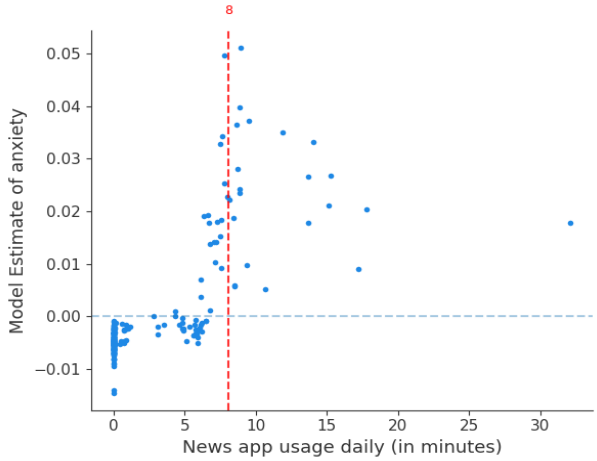

Also...

1. When you had dimmer light around you, you were more calm.
2. When you tapped your phone keyboard fewer times, on average, you were more calm.

Anxious

When you used news apps (apps like Reddit, NPR, and X) for less than 8 minutes in a day, you were less anxious.

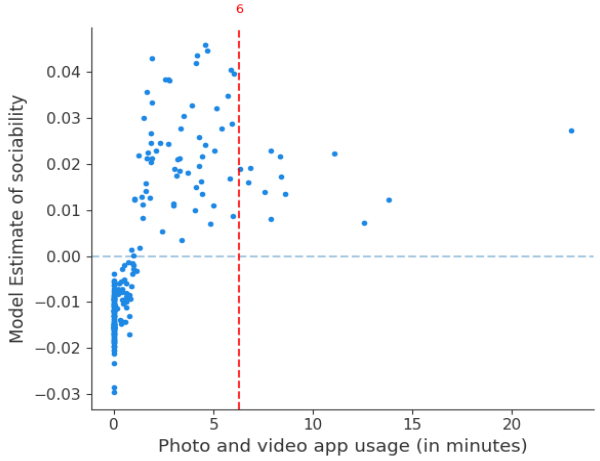

Also...

1. When you traveled shorter distances, you were less anxious.
2. When you spent less time on health and fitness apps (apps like Calm and Planet Fitness) daily, you were less anxious.

Over the last few weeks...

Social

When you used photo and video apps (apps like Instagram, Snapchat, and Youtube) for less than 6 minutes, you were less social.

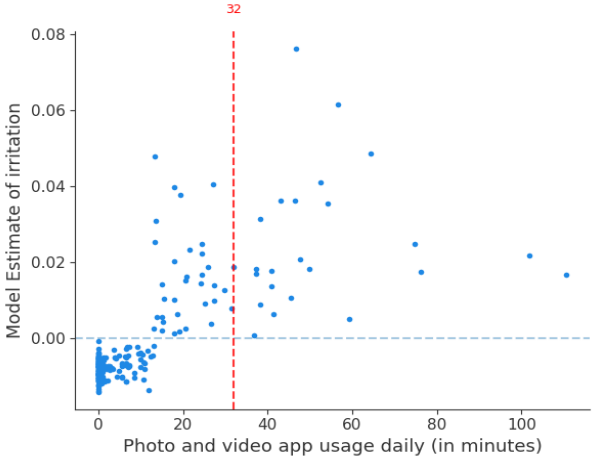

Also...

1. When you received fewer text messages, you were less social.
2. When your slowest movement was faster, you were less social.

Irritated

When you used photo and video apps (apps like Instagram, Snapchat, and Youtube) for less than 32 minutes in a day, you were less irritated.

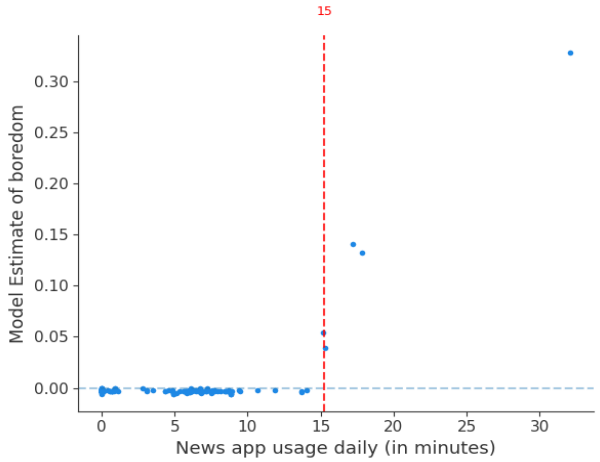

Also...

1. When you were messaging fewer people, you were less irritated.
2. When the light around you changed less, you were less irritated.

Bored

When you used news apps (apps like Reddit, NPR, and X) for less than 15 minutes in a day, you were less bored.

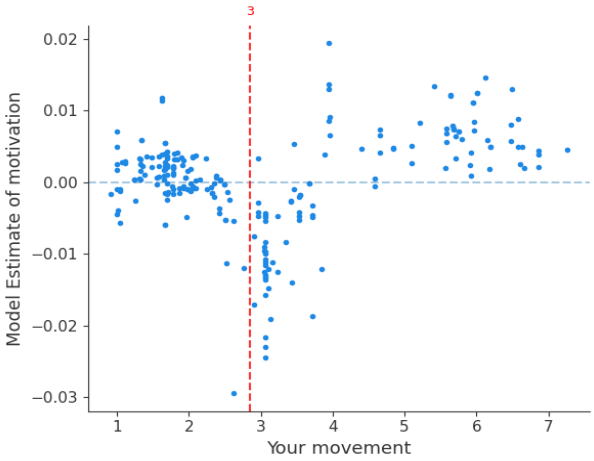

Also...

1. When your phone screen was awake (includes checking the time, receiving notifications) less times during the day, you were less bored.
2. When you sent and received fewer text messages, you were less bored.

Motivated

When your movement during the day was slower than running, you were less motivated.

Also...

1. When you unlocked your phone for less time, you were less motivated.
