Welcome to your Insights!

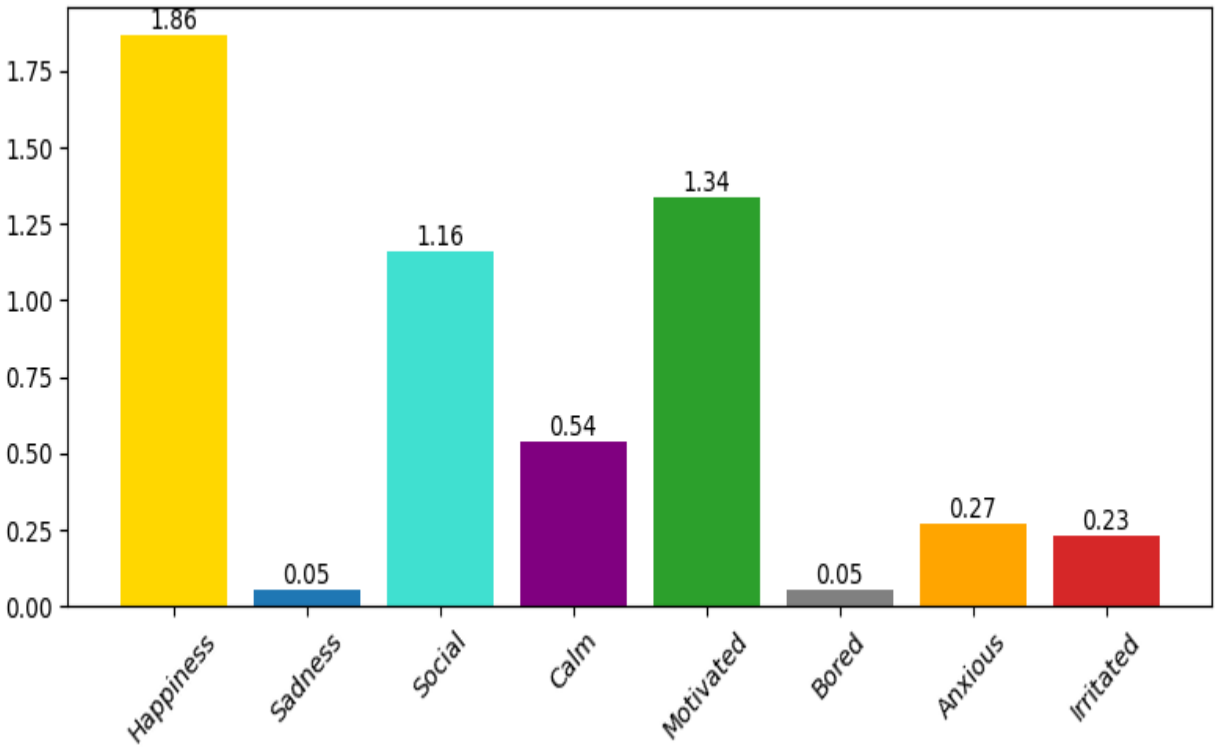

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the last two weeks, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last two weeks!

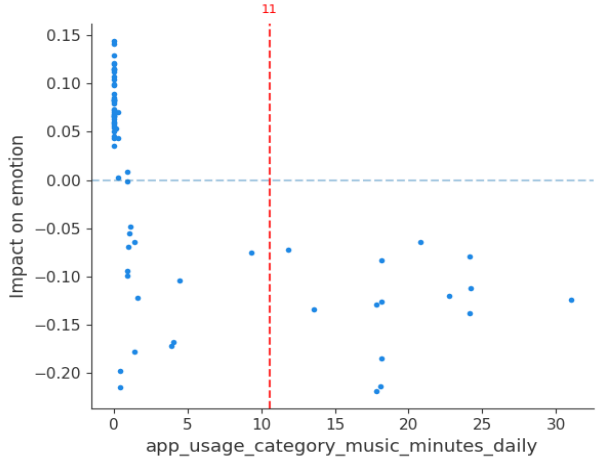

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you used music apps (this may include apps like Spotify and Youtube Music) for less than 11 minutes in a day, you were more happy.

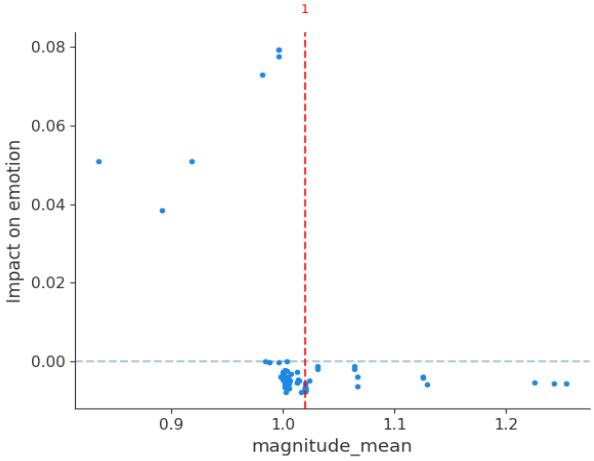

These are the top two actions associated with more happiness:

1. Less time you spent on music apps (this may include apps like Spotify and Youtube Music) in a day
2. Less distance that you traveled

Sadness

When the average activity you did was similar to or less than mild activity (which includes walking and jogging) , you were more sadness.

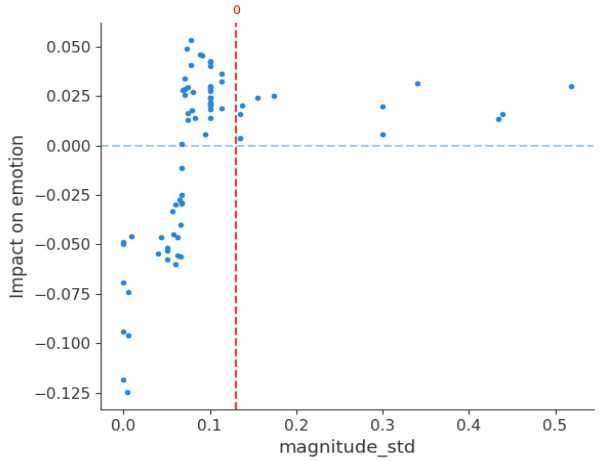

These are the top two actions associated with more sadness:

1. Less average activity for you
2. Less large distances you traveled

Social

When the variety of activities that you did was small, you were less social.

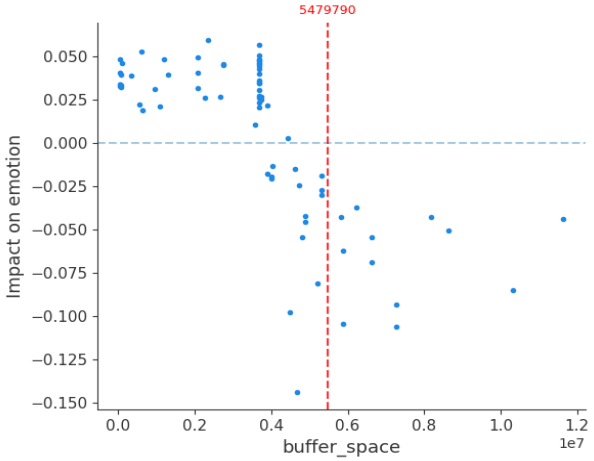

These are the top two actions associated with being less social:

1. Less varied activity
2. Less lower activity

Calm

When the area that you covered while traveling was less than a small town, you were more calm.

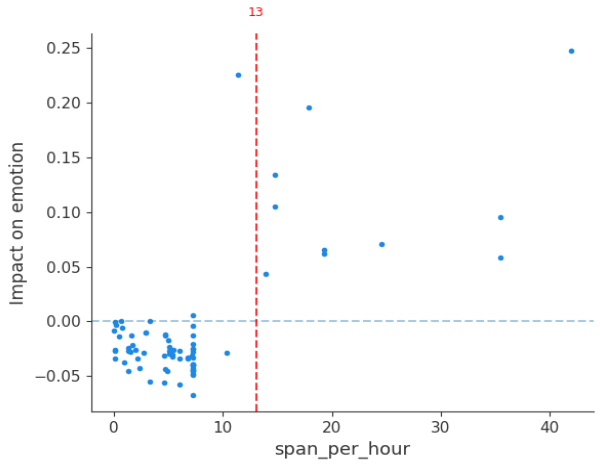

These are the top two actions associated with feeling calmer:

1. Less area covered while you were traveling
2. More phone unlocks during the day

Over the last few weeks..

Motivated

When you traveled large distances that were less than 13 miles , you were less motivated.

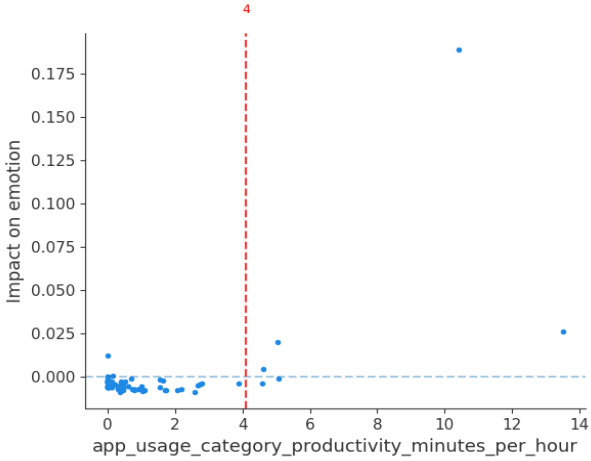

These are the top two actions associated with feeling less motivated:

1. Less large distances you traveled
2. Less dim amount of light

Bored

When you used productivity apps (this may include apps like Gmail, ChatGPT, and Google Drive) for less than 4 minutes , you were less bored.

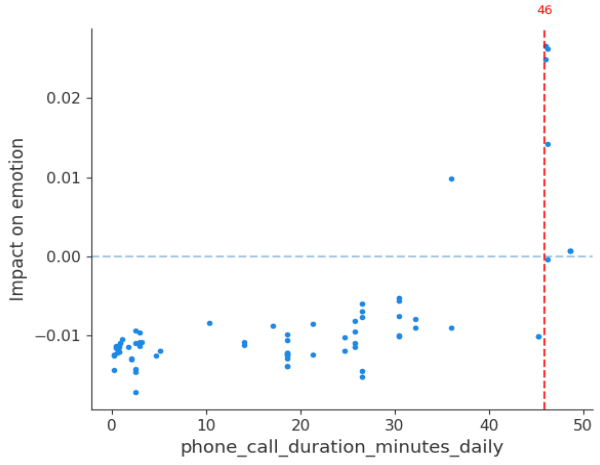

These are the top two actions associated with feeling less bored:

1. Less time you spent on productivity apps (this may include apps like Gmail, ChatGPT, and Google Drive)
2. Less lower activity
