Welcome to your Insights!

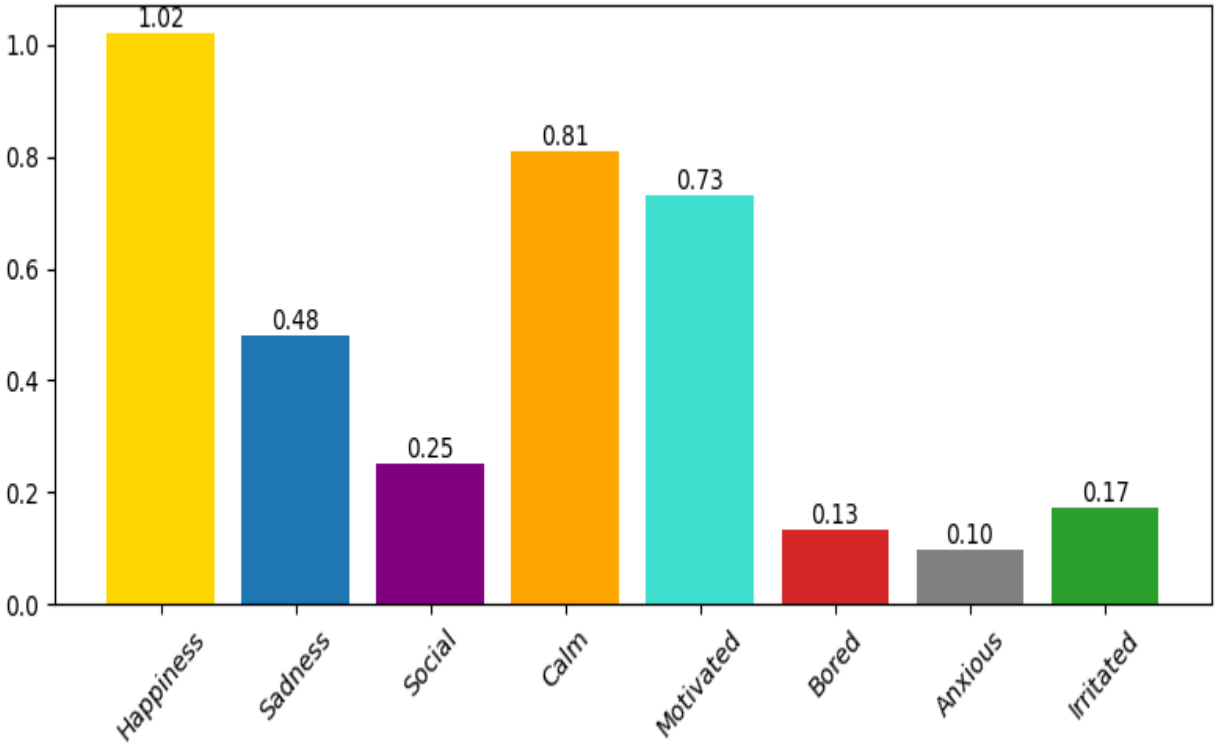

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the last two weeks, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last two weeks!

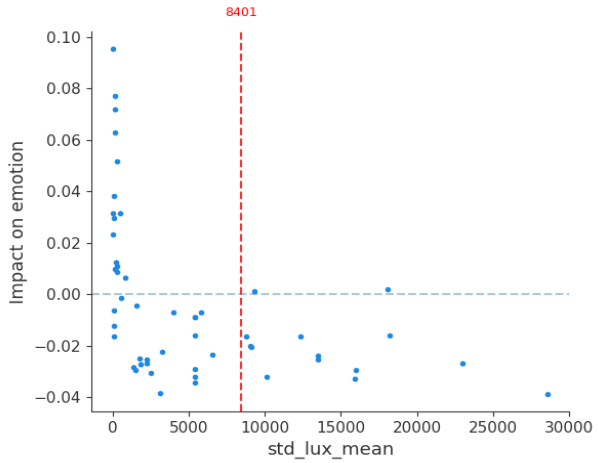

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When the variability of brightness of light around you was less than daylight, you were more happy.

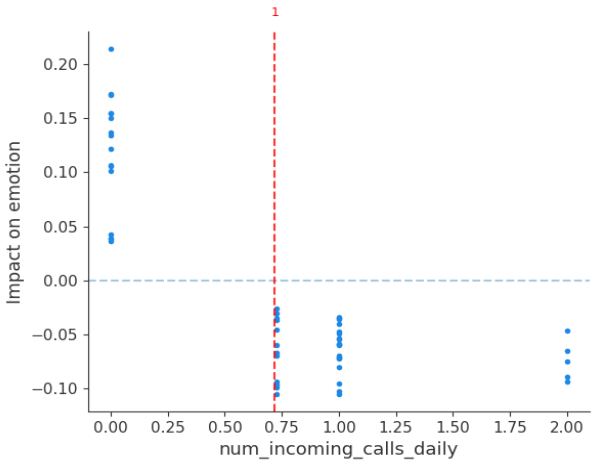

These are the top two actions associated with more happiness:

1. Less variability in the amount of light
2. Less time you spent on utilities apps (this may include apps like Google and Chrome)

Sadness

When you received more than 1 calls in a day, you were less sad.

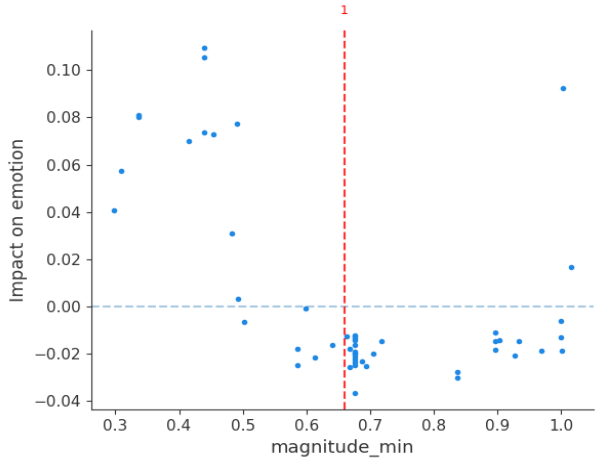

These are the top two actions associated with less sadness:

1. More phone calls that you received in a day
2. Less typical activity you have done

Social

When the lowest activity you did was similar to or more than mild activity (which includes walking and jogging) , you were less social.

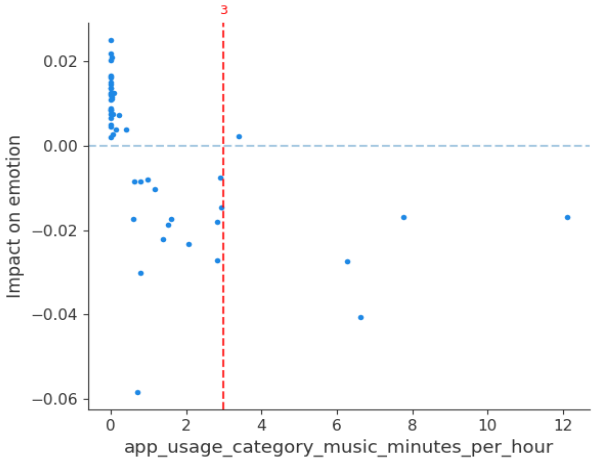

These are the top two actions associated with being less social:

1. More lower activity
2. Less time you spent on social networking apps (this may include apps like Facebook, Discord, Threads, and BeReal) in a day

Calm

When you used music apps (this may include apps like Spotify and Youtube Music) for less than 3 minutes , you were more calm.

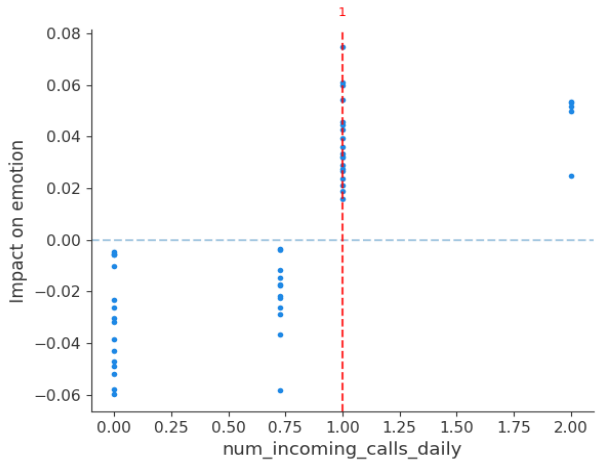

These are the top two actions associated with feeling calmer:

1. Less time you spent on music apps (this may include apps like Spotify and Youtube Music)
2. Less typical activity you have done

Over the last few weeks..

Motivated

When you received less than 1 calls in a day, you were less motivated.

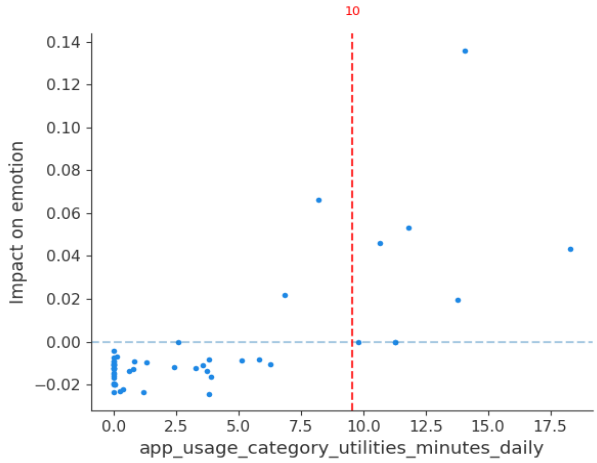

These are the top two actions associated with feeling less motivated:

1. Less phone calls that you received in a day
2. Less time you spent on social networking apps (this may include apps like Facebook, Discord, Threads, and BeReal) in a day

Bored

When you used utilities apps (this may include apps like Google and Chrome) for less than 10 minutes in a day, you were less bored.

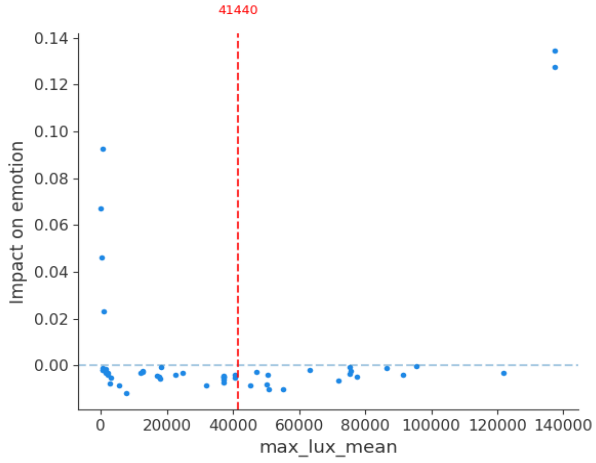

These are the top two actions associated with feeling less bored:

1. Less time you spent on utilities apps (this may include apps like Google and Chrome) in a day
2. Less time you spent on news apps (this may include apps like Reddit, NPR, and X) in a day

Anxious

When the brightest light around you was less than bright sunlight, you were less anxious.

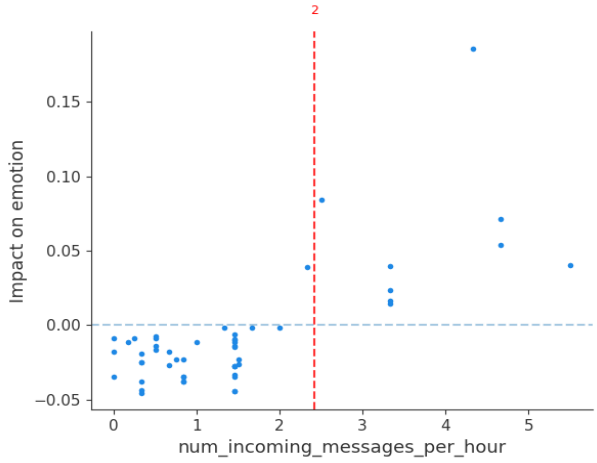

These are the top two actions associated with feeling less anxious:
