

Welcome to your Insights!

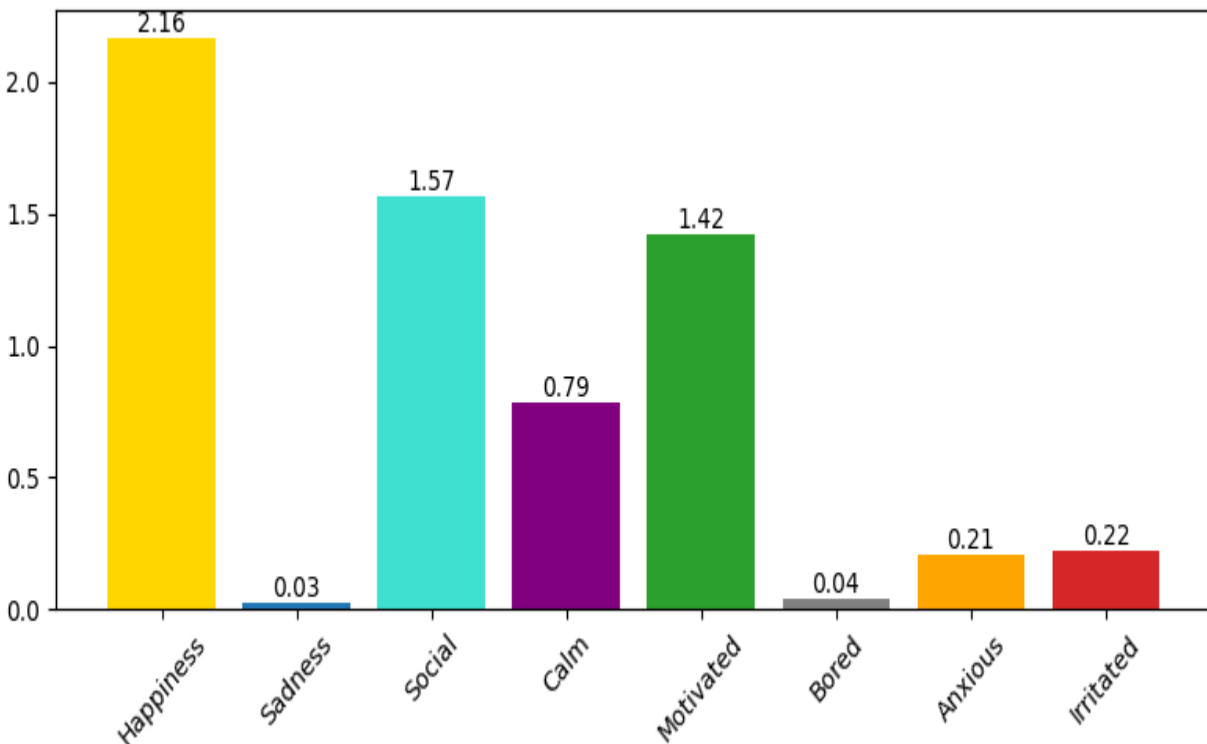

Below you will find insights and trends related to your behavior and reported emotions over the course of the study. Please review with your clinician in your next session.

The number at the top of each bar is the average score of an emotion you felt over the course of the study, ranging from 0 (no emotion) to 3 (greatest amount)!

The taller the bar is, the more you felt that emotion over the last few weeks!

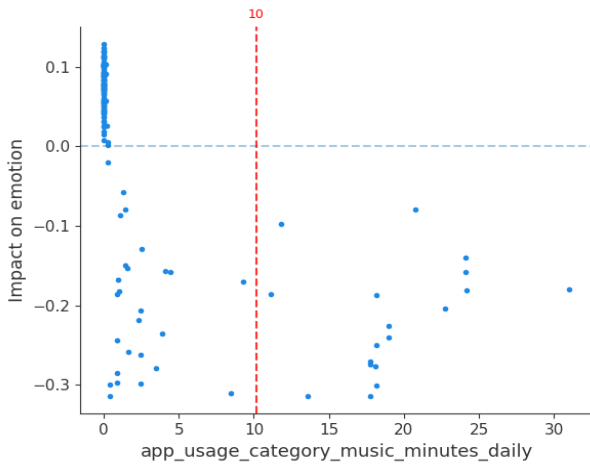

Psst: scroll down to see how your actions corresponded with your feelings!

Over the last few weeks...

Happiness

When you used music apps (this may include apps like Spotify and Youtube Music) for less than 10 minutes in a day, you were more happy.

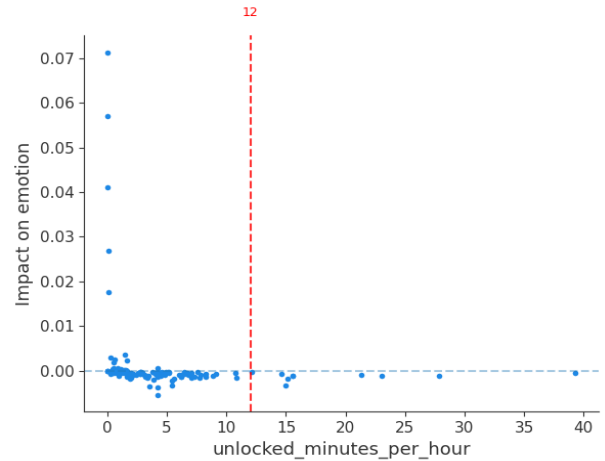

Also...

1. When you were more happy, you called for less time
2. When you were more happy, you sent and received less text messages

Sadness

When you unlocked your phone for less than 12 minutes , you were more sad.

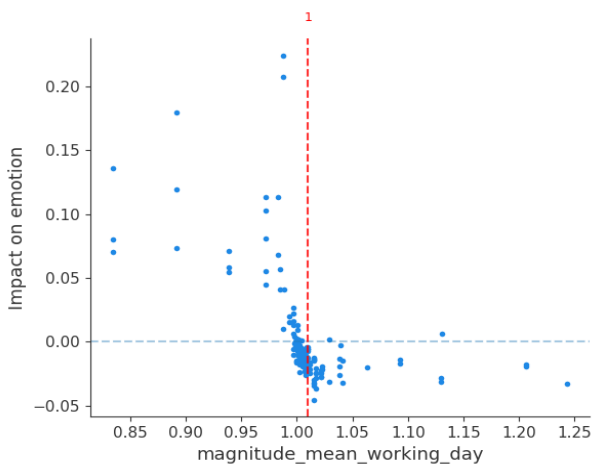

Also...

1. When you were more sad, you spent less time on weather apps daily
2. When you were more sad, you spent less time on social networking apps (this may include apps like Facebook, Discord, Threads, and BeReal) daily

Calm

When the average activity you did was similar to or less than mild activity (which includes walking and jogging) during the daytime, you were more calm.

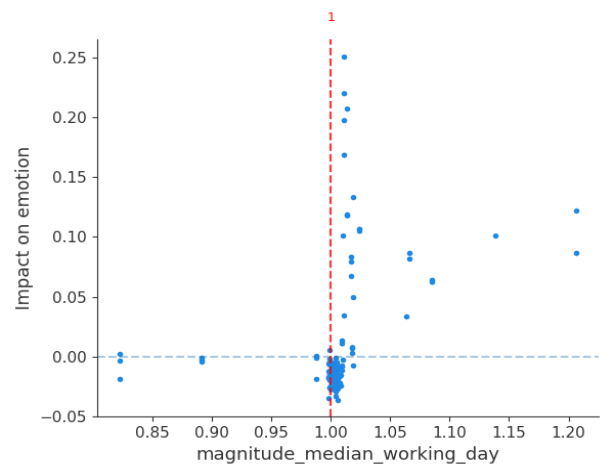

Also...

1. When you were more calm, you did less typical activity you did during the daytime
2. When you were more calm, you spent less time on utilities apps (this may include apps like Google and Chrome) daily

Anxious

When the typical activity you did was similar to or more than mild activity (which includes walking and jogging) during the daytime, you were more anxious.

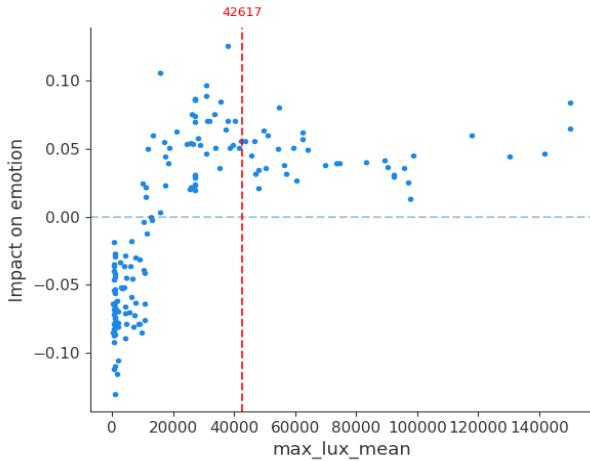

Also...

1. When you were more anxious, you unlocked your phone for less time
2. When you were more anxious, you did less high types of activity

Over the last few weeks...

Social

When the brightest light around you was less than direct sunlight, you were less social.

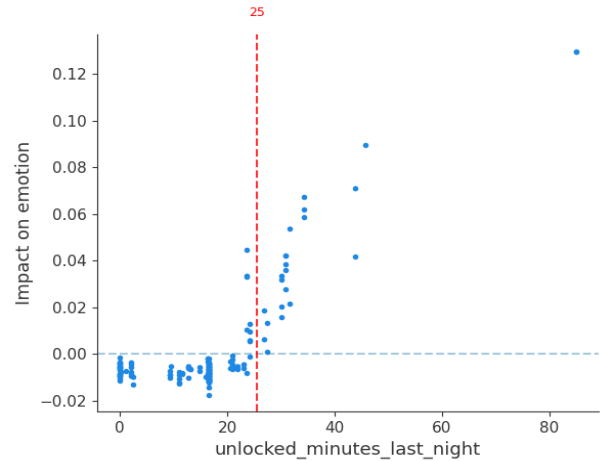

Also...

1. When you were less social, you spent less time on music apps (this may include apps like Spotify and Youtube Music) daily
2. When you were less social, you unlocked your phone more

Irritated

When you unlocked your phone for less than 25 minutes during the night, you were less irritated.

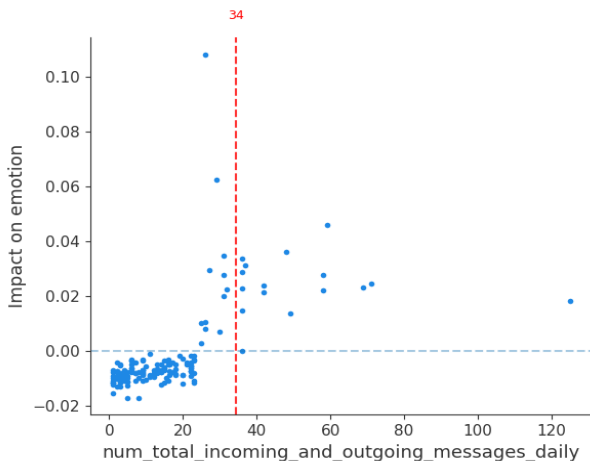

Also...

1. When you were less irritated, you spent less time on productivity apps (this may include apps like Gmail, ChatGPT, and Google Drive)
2. When you were less irritated, you had less variability in the amount of light
